900-930 & 1250-1300 MHz PCB Yagi’s
WA5VJB

Uses: ATV Beacons Rovers Repeater Wireless Systems Dish Feed Satellite RFID

Notes:
Solder the Coax shield to the pad on the reflector and the center conductor as shown.
.141 and .085” Simi-Rigid coax work well.
Also RG142 and other Teflon Coax’s work well.
Use 50 Ohm Coax

Some versions may need to have the solder coating scraped off.
